

Table Topics Evaluator

The duty of the Table Topics Evaluator is to study and report on the Table Topics session. The timing is 4-6 minutes.

What you should look for is:

The quality of the answers. Was the question answered? Did it make sense? Was the speech construction logical?

How did the speaker handle the topic generally?

The speaker's presentation, including gestures and eye contact.

Do not waste time repeating the question. Do not generalise, be specific. Make an effort to offer suggestions for improvement.

Also comment on the Table Topics Master's role. Did she/he have an interesting program? Were the questions appropriate? Offer any suggestions for improvement.
